McRae and the latter takes this opportunity of expressing appreciation for the wonderful loyalty and co-operation given him during his residence in Champion and since his removal to the east. We bespeak for Mr. Orris this same spirit of helpfulness and consideration.

Thanks are due our readers, correspondents, advertisers and patrons of the job work department, for without the co-operation of all the above our enterprise at Champion would fail. Thanks to the loyalty of the people of Champion, Carmangay and

Vacation Delights In Old World Setting

Tourists who previously found the time-mellowed cities of Europe the answer to their vacation problems are today enjoying those same old world delights on their own side of the Atlantic—in old Quebec City where practically every vacation sport and pastime, including golf, tennis, fishing and hunting, combined with the most up-to-date accommodation, awaits the visitor in a mediaeval setting unique on the North American continent.

Easily accessible by Canadian Pacific rail lines from Montreal, New York, Boston, and other large eastern centres, Quebec is experiencing one of the liveliest seasons in its 300 years of his-

tory. The opportunity of attending service in century-old churches, rambling through narrow, cobbled streets, over long-silenced battlefields, and seeing the colorful "habitant" at work in the fields, is a rare privilege in the new world, and one that Quebec alone can offer.

The ancient dwellings of Quebec's "Lower Town" stand out in sharp contrast to the modern grace of the Chateau Frontenac, popular headquarters for the Quebec visitor. This famed Canadian Pacific hostelry is starting point for many a delightful sight-seeing tour by bus, cab, or lofty, horse-drawn caleche. Within easy distance lie the historic

Plains of Abraham, the Citadel, the ancient city wall, the Great Gates, numerous monuments and other interesting landmarks.

Farther afield the tourist is drawn to the picturesque Isle of Orleans, where farmers still sow by hand, plow by oxen, reap with the scythe and thresh with the flail, while women ply ancient hand-loom and spinning wheels. Other nearby attractions include Wolfe's Cove, Quebec Bridge, the Shrine of Ste. Anne de Beaupre, Montmorency Falls and Kent House, while northward lies the famed Laurentides Park, a vast area of virgin lake, forest and stream country where vacation delights await at every turn.

First 1941 Quota Will Be Five Bushels

Wheat Board Regulations No. 32, issued Thursday, July 24th to become effective August 1st, 1941, reads as follows:

"The First Quota on wheat deliveries shall be Five Bushels per authorized acre. By authorized acre is meant the wheat acreage specified on the inside cover of the 1941-42 Permit Book for the farm concerned." No delivery quota will be established on coarse grains.

Wheat Board Regulations No. 33, issued Thursday, July 24th to become effective August 1st, 1941, reads as follows:

"For the present, no delivery quota will be established on Oats, Barley, Rye and Flaxseed and deliveries of these grains do not need to be recorded in the Permit Book nor do these grains have to be delivered at the delivery point specified in the Permit Book."

districts served, the business has held despite handicaps. The publisher will of course continue to be vitally interested in The Chronicle's welfare and we are expecting great things for the future if the present plans of Mr. Orris are carried out.

Before writing "30" to this word of appreciation we would be amiss if we did not mention that we are not forgetful of the work of Kenneth Glinz, now serving his country in the air force and Donald Lee. These persons

tried their utmost to carry out the wishes of the patrons and publisher, and it is appreciated by both the former and the latter.

While separated from the people of the district by 2200 miles the owner of The Chronicle not only has a financial tie there but one of friendships and as stated will always look forward to hearing of advancements in the community, individual successes and the progress of The Chronicle.

ANOTHER CHANCE TO SHOW 'EM

The people of Canada have answered twice recently the parrot like repetition of after dinner orators that this country doesn't know there is a war on, when they over-subscribed the biggest war loan yet attempted, and just recently reached the objective of thirty-two thousand

men in the drive for recruits in the specified time.

They can give those chirpers another proof, but we are not so confident they will in this case. They can use their cars less and plan better the driving they do in order that the supply of gasoline for our fighting forces may not be endangered. This must be absolutely assured, even if cars have to stop running altogether. This, however, is not probable, but the drivers are now on their honor in this matter, and the question is, will they measure up? If not, the authorities will go one step farther, and introduce rationing.

We have faith in the people of Champion, Carmangay and districts responding. It is not suggested that necessary

driving be stopped but that citizens show their patriotic feeling by simply reducing their gas consumption by 50 percent.

Don't forget—you can still buy War Savings Certificates.
